

Market Animal Sale

4-H and FFA youth have completed an educational experience in livestock production. This project has provided "hands-on" experience while discovering why Agricultural Production is an important industry in the United States.

4-H and FFA youth through this project, develop life skills such as responsibility, leadership, and citizenship skills that will prepare them to be our future leaders of tomorrow.

Having local community support during this sale will make it possible for the young people to receive recognition, and save funds for further education after high school or a career.
